

INSPIRED SUPPORT

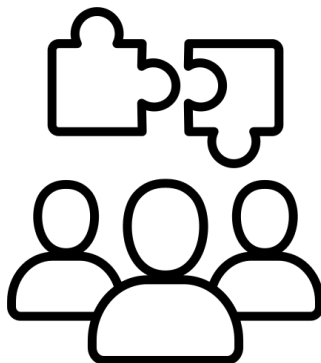

Customer Induction

You have now made a great move and joined Inspired Support to help you with your life skill development.

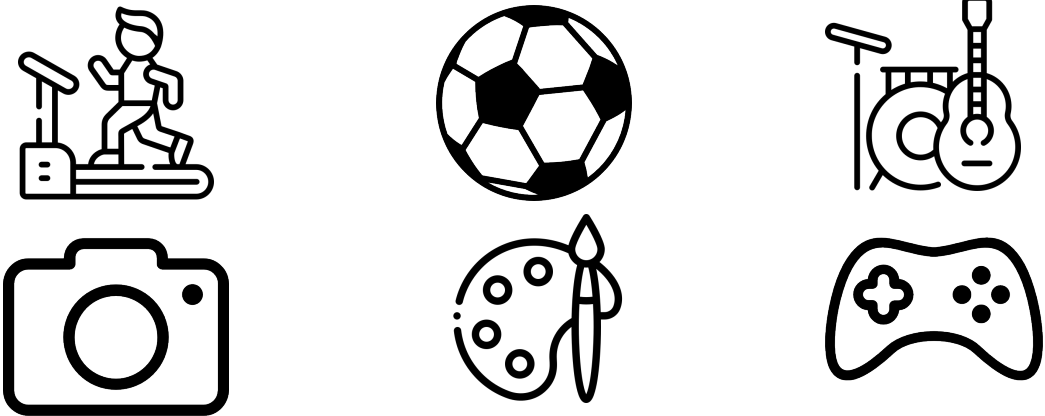

Inspired Support will try to make your service:

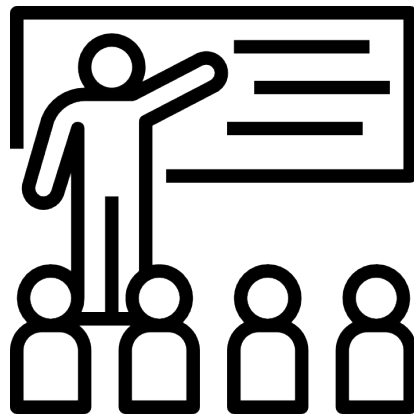

Person Centred and all about what you want

A place to learn new cool skills

A safe place to learn

A fun place to learn

We will also help you to meet the outcomes in your care and support plan that you did with your social worker.

In your first few sessions we will:

Make you familiar with the building and fire procedure

Introduce you to your mentors, managers and other customers.

Show you how to stay safe and tell you about safeguarding and whistle blowing.

Most importantly show you the cool things you have chosen to do and can learn

In the first few months you will:

Have a plan of outcomes and things you like doing

Have a person-centred plan and four corner profile

Have decided what you want so you are happy.

If at any time you are concerned or unhappy then firstly tell your mentor or someone you trust.

If your mentor does not help you or you want to speak to someone else then tell a friend or someone at home.

You could also speak to the Area Lead for your service, the management team (Stu and Mel), the Director (Richard) or your social worker.
